Red•Dot®

Code Keeper® Universal While-in-Use Covers

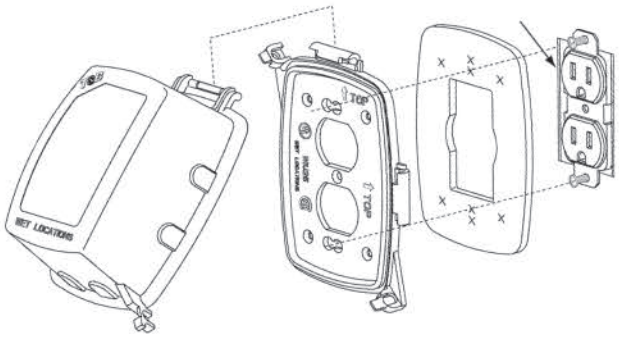
Universal While-In-Use Covers keep outlets safe and dry!

T&B's newest Universal While-In-Use Covers keep out moisture and take the hassle and cost out of installation. Single- or two-gang kits accommodate up to eight configurations each, and every cover is designed with a method to secure using an external locking device. Perfect for all outdoor outlets including landscape lighting, lawn equipment, pool/hot tub pumps, and holiday lighting.

Red•Dot® Code Keeper® covers include these features:

- Required by NEC code for all outdoor outlets
- Single or two-gang kits accommodate up to 8 configurations
- Vertical or horizontal mounting
- Saves time – no inserts to slow you down, no labor intensive cutouts
- Mounts to a box or the device and all installation screws are included
- Great for retrofit applications – no need to remove existing device
- Weatherproof, transparent, high-impact thermoplastic cover
- High impact UV-resistant polycarbonate base construction
- Lockable cover design for added security
- Accommodates GFCI, single and duplex receptacles, toggle switches and single receptacles up to 1.59" diameter
- Perfect for all outdoor outlets including landscape/ holiday lighting, lawn equipment, pool/hot tub pumps

Fast and easy installation. Choose your base plate and secure to the device. Snap on the lid, and you're done!



Code Keeper® Universal Nonmetallic While-In-Use Cover
